

# ABBAS ALI

## FULL STACK DEVELOPER

Lahore, PK | +923016083148 | [hello@abbasali.me](mailto:hello@abbasali.me) | [abbasali.me](http://abbasali.me) | [LinkedIn](#) | [GitHub](#)

### PROFESSIONAL SUMMARY

---

Full-Stack Developer with 3+ years of experience building scalable web products. Skilled in system design, AI agent systems, and blockchain integration — owning the full product lifecycle from architecture to deployment.

### WORK EXPERIENCE

---

#### Full Stack Developer, Chaos Corporation

May 2023 – Present | Karachi

Full-Time | On-site

- Developed and shipped multiple company products including an internal CRM system, collaborating closely with cross-functional teams across design, product, and engineering.
- Worked across the full stack — from database architecture and API design to responsive frontend interfaces. Delivered blockchain-integrated features and AI-powered automation tools.
- Developed and integrated RESTful APIs to support core business workflows and third-party service connections.

### EDUCATION

---

#### Bachelor of Science in Computer Science

Mar 2021 – Mar 2025

Virtual University of Pakistan

**Relevant Coursework:** Data Structures, Algorithms, OOP, Database Management Systems, Computer Networks, Software Engineering, Artificial Intelligence, Information Security, Cloud Computing, Web Services Development, System Programming, Operating Systems.

**Final Year Project:** COVID-19 Detection via Chest X-Ray Images — trained deep learning models achieving 90%+ classification accuracy.

### SKILLS

---

**Frontend:** React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion, Three.js

**Backend:** Node.js, Express.js, REST APIs, WebSockets, Webhooks, Event-Driven Architecture

**Databases:** PostgreSQL, MongoDB, MySQL, Supabase, Prisma ORM

**Blockchain / Web3:** Solidity, Ethereum, Solana, Wagmi, Viem, IPFS

**AI / Agents:** LangChain, LangGraph, Multi-Agent Workflows, Claude API

**DevOps & Tools:** Docker, AWS, Vercel, Git, GitHub, Linux, Bun, pnpm

### PROJECTS

---

#### CRM System — Internal Tool for Sales Team

- Built a full-featured internal CRM from scratch covering client management, sales pipeline, invoicing, and reporting dashboards tailored for the company's sales team.
- Designed the complete system architecture including relational database schema, RESTful APIs, and role-based access across modules.
- Delivered a unified platform that streamlined the team's daily workflows, deal tracking, and financial operations in one place.

#### [Carbon Kerma](#) — Blockchain Carbon Credit Marketplace

- Extended the platform by designing and developing a Carbon Credit Exchange feature, enabling participants to trade environmental assets directly within the marketplace.
- Upgraded marketplace architecture to support carbon credit workflows and participant management at scale.
- Optimized dashboard performance and blockchain-integrated transaction flows.
